Datco for Transportation and Gas & Oil  
Sana'a, Republic of Yemen

Attn : Mr Abdullah Nasser Ahmad Douman  
General Manager

Subject : Transportation of Nabors Drilling Rigs.

Dear Sir,

I would like to thank you for the smooth and effective operation during the whole process of transporting the Rigs.

Handling, transporting and loading Drilling Rig equipment is a far more demanding scope of work than dealing with ordinary cargo – items with either excessive weight and / or huge volume must be dealt with, not to mention restricted road conditions, restricted trucking capacities, etc.

The scope of work for "Datco Company" included the transporting of Rig 217 (Rig Move) to new locations in the past.

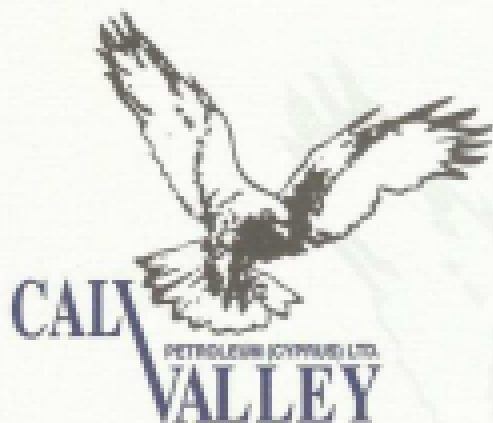

The whole transport operation as far as the involvement of "Datco Company" is concerned was completed within a good time frame. (as per Nabors loading schedule)

This effective operation would not have been possible without a very good co-operation of all parties involved and the enthusiasm of "Datco Company" supervisors.

After the successful completion of Rig Move conducted in the past, I have no objection to recommend the expertise of "Datco Company" for any future rig transports in this area of operation.

Yours faithfully,  
For Nabors Drilling International Limited – Yemen

Dave Woolard  
Materials Manager

A Letter of Recommendation

To Whom It May Concern,
